**Essence Type:** 16 Single Flower Essences and 4 Flower Essence Combinations | Stock Level

**Size:** 10ml & 25ml

#### **How to Use**

A normal adult dosage is 4 drops directly on the tongue, 3 or 4 times a day from your chosen essence or combination. We'd usually suggest that to gain maximum benefit from your essence you take it directly from stock without further dilution - this gives you the deepest acting effect from the essence. We'd normally recommend that you finish the whole bottle before seeing whether more of that particular essence or another is needed. Preferably take at least 10 minutes away from food and drink.
